Turki Adnan Abbas

DFIR Analyst | Mobile Forensics & Threat Hunting

+966 592 175 302 | Turki.adnan.abbas@gmail.com | turki-abbas | Madinah, Saudi Arabia

SUMMARY

DFIR Analyst experienced in security investigations, digital evidence review, SIEM/EDR log correlation, IOC analysis, threat hunting, and attack timeline reconstruction. Strong foundation in Android and iOS mobile forensics, including SQLite and application artifacts. BSc in Information Systems and advanced DFIR training at Tuwaiq Academy.

CERTIFICATIONS & TRAINING

CompTIA Security+	eCDFP	eCTHP
Security Operations & Fundamentals	Digital Forensics Professional	Threat Hunting Training

EXPERIENCE

Riyadh, Saudi Arabia
DFIR Analyst | Sep 2026 – Present

- **Conduct digital forensic investigations by analyzing endpoint, authentication, and network security events.**
- **Correlate evidence across SIEM and EDR platforms to identify suspicious activity and reconstruct attack timelines.**
- **Investigate IOCs, suspicious processes, compromised accounts, and potential lateral movement.**
- **Perform threat hunting, document forensic findings, and support incident response and remediation activities.**

Tuwaiq Academy | Riyadh, Saudi Arabia
Cybercrime & Advanced Digital Forensics Bootcamp | Jan 2026 – Apr 2026

- **Conducted hands-on investigations in mobile, disk, memory, and network forensics, including digital artifact and PCAP analysis.**
- **Reconstructed attack timelines, identified IOCs, and earned Top Performer of the Week recognition and 1st place in the Cyber Kill Chain project.**

EDUCATION

Taibah University | Madinah, Saudi Arabia

Bachelor of Science in Information Systems| June 2024.

TECHNICAL SKILLS

Mobile Forensics

- Android & iOS forensic analysis
- SQLite & application artifacts
- Calls, SMS, media & browser data

Mobile Threat Hunting

- Mobile IOCs & threat hunting
- Suspicious application review
- Permissions & accessibility abuse

Tools

- Magnet AXIOM, Cellebrite & Oxygen
- Autopsy, FTK Imager & Wireshark
- ADB & JADX
